

BOOKS - Monographs/Treatises

This selective listing of monographs and treatises includes titles of interest to attorneys and to educators. Some are barely more than pamphlets and some are multivolume looseleaf titles. The titles are divided roughly by subject, but in some cases, there is considerable overlap in the subjects dealt with in particular titles; thus, the title might be relevant to more topics than the one in which it is listed. Generally, titles published prior to 1990 are not included, although there are a few exceptions when the title seemed particularly important or unique.
